Attachments: Interview questions

Time 11:15	Presentation Ask questions about what we showed during the presentation.
Time 11:20	New functions We will ask about new things we are going to implement. (This includes the website)
Time 11:35	Design and styling We will ask about the design.
Time 11:40	General We will ask about priorities and any other questions left.

Additional information:

We intend on recording this meeting to make sure we can use everything that has been said later.

Attachment 1: Interview Questions

Are you okay with us recording this interview?

ISJS PROGRAMS

1 Feedback

- 1.1 What are your thoughts on the application so far?
- 1.2 Do you have anything you want to change or add to the schedule functions?
- 1.3 Do you have anything you want to change or add to the employee functions?
- 1.4 Do you have anything you want to change or add to the product functions?

2 New functions

- 2.1 You told us about restock requests earlier, is that something you still want to include?
- 2.2 We were planning on adding in a feature to register the attendance of employees, what do you think about that?
(Any suggestions on how it should work etc.)
- 2.3 What kind of new functions do you want us to implement?

3 Website

- 3.1 You mentioned that you want a website for employees to see the schedule and adjust their personal information, is that something you would like us to start working on now, or is that still for later?
- 3.2 How do you imagine that working and looking?
- 3.3 Do you want to add more functions to the website?

4 Design and styling

- 4.1 Do you have anything in mind for design?
- 4.2 Do you have a logo or colors collection to basic the design on?

5 Prioritizing

- 5.1 what should we prioritize for the next coming weeks?
