

Minutes of meeting

Meeting 12-04-2022 11:15 – 11:45

Attendees

Group 5:

- Ivan Sakal
- Saeed Ba Wazir
- Soleil Umwiza
- Jessie van Nuenen

Tutor:

- Brice Guayrin

Notes

The priority lies on finishing the desktop application. Within the application focus on what the client requested and crucial bugs. We will at least add a basic design with some colors.

We can give every bug a score (1-5) for example to state how severe it is. Only really severe bugs should be prioritized now, the rest can wait.

For website prioritize functionality over design. It would be nice to implement some basic css so it is easier for people to work with. Complete styling is for later.

For the first question in the process peer review look at the slides from the workshop about the types and see if it explains the possible issues in the group. That is what should be written down there.

The process peer review will be discussed on Thursday.
