Notes

Add relationships to database design.

Maybe no time for restock. Prioritize the employee management.

Add a field for if an employee is active or inactive.

First priority is CRUD employee. Second is scheduling and shifts. After start on product.

Statistics won't be done before week 6. Don't bother.

Finish URS before Friday 17:00.

Before vacation update database diagram and start UML diagram.

After the vacation finish UML and start implementation.
