Tutor:

- Brice Guayrin

Notes

If there is time left it is still a good plan to work on restock request.

For now, having three people working on the website is a lot. Move one person to the desktop.

It will be good to start thinking about three-layer design, but it is not necessary yet. In week 10 or 13 you should have three-layer design.

Work on implementing the feedback of the documentation. The documents look good but there are still some slight points of improvements.

Next week Tuesday end of the day submit the process peer review on canvas (individually).

During the meeting on Tuesday we will give a short informal demo.

Thursday we will discuss the process peer review documents, so Tuesday will be the last “normal” tutor meeting before the next client meeting.

Next client meeting will be Tuesday 19-4.
